

Disaster Assessment Tool

1) Who are the most vulnerable people *right now*?

A) How are Women, Elderly, and Children surviving?

B) Are there certain groups (ethnicities) that are especially vulnerable?

2) What are their primary needs?

3) What resources are already here that can meet these needs?

4) What is working to help people get back to normal?

5) What is stopping people from getting back to normal?

General Question to understand the Aid situation in this disaster:

6) How is the response being coordinated with local, national, and international organizations?
